Camp for 6 flocks.

To be given in exchange for 4,000 fine sheep a splendid tract of campo, situate on the best, permanent, arroyo of the province: it is about two leagues long, and within 8 or 9 hours journey by steamer, from this city. The present state of the camp could not be more suitable for sheep, and the freight of wool is 12 reals to 82 more per arroba, the land being only 4 leagues from the river Paraná.

Apply between the hours of 8 and 10 A. M. and 4 and 6 P. M. at 174 calle Piedras.

Also an estancia to rent, with 12 quintas, including ranchos, corrals, paddocks, and permanent water, alfalfa lands &c.

Apply as above N 17, m.

Great and Useful Invention.

No more Mortality fat want of Water.

Sure remedy to Intermittents

By the Robert Apparatus.

Being notorious the immense injury occasioned by the scarcity of water during the long (sereno) that afflict the camps of Buenos Ayres, I have determined to dedicate to the Estancieros an Apparatus at once simple and infallible for procuring as much water as they may require.

120 Bordaleses per hour (it seems fabulous) is procured with my apparatus, without fear of at any time its getting out of order.

This machine is worked by one horse and in one day's work can give 41 Bordaleses; that is to say, sufficient water for 20,000 head of cattle.

By these figures can be calculated the immense advantages gained by its use.

Another advantange is the facility of putting it together and taking it to pieces, so as to be able to transport it to any place where it may be necessary to use it, other for watering purposes or others.

GREAT MODIFICATION.

I have made an improvement in my Apparatus, applying a new system which reduces the necessary force two thirds, giving it at the same time more rapidity.

Those interested can see it at Calle Moreno, No. 340 (Hennerrado, Paris.)

One sole inspection of the Apparatus will prove to them the superiority of it over any other. ROBERT.

WEDNESDAY, MARCH 2, 1864.

THE NEW FINANCE MINISTER

Dr. Lucas Gonzalez has been called by President Mitre to take the portfolio of National Finance, which has been for some time temporarily held by Dr. Elizalde, Secretary for Foreign Affairs. There can be no doubt that this is the weak point of President Mitre's administration, while it is also that wherein depends the working of a good Government. The revenues of the Republic are four times the requisite amount, and we have before shown that Argentines pay more taxes than any other men, in creation. The Treasury ought to be overflowing, for the interest of the Parana debts is merely a trifle compared to the National Customs. We want no financial luminary but merely a good book-keeper to manage the creditor and debtor account.

Dr. Sarsfield, the inventor of that extraordinary machine, the Bank of B. Ayres, was not very successful in his schemes: except that he passed the barbarian measure of taxing books and printing materials.

Dr. Elizalde has acquired an unenviable reputation for deficits, and after his failure of eighteen millions in the Buenos Ayrean firm, we never thought he should get the management of the Argentine Financial Company. He has not mended his hand in the second office, for we are apt to believe Messrs. Mitre and Co., are "very hard up." The creditors, who compounded for monthly liquidations, by fire, have been defrauded of their hopes, and Mr. Public Credit having died suddenly, Mr. Doubleon has separated from the Mitres, and left Messrs. Bank and Paper-dollar in an alarming position.

The Minister of the Interior intercedes for his Financial brother, begging the Governor of Buenos Ayres to reduce the debt agreed to by the Nation, but this is an unpropitious time, for the Buenos Ayrean party are vexed at the late elections, and Snr. Saavedra declares he must have his pound of flesh.

At such a time we have the announcement of new prophet in the ex-Senator of Santa Fe. Snr. Pinto claims the honor with thanks. It would be rash to predict the fortune of the new Minister, but we are inclined to judge him favourably. In the various financial debates of Congress, he has always displayed good faith, perspicuity, and a profound study of the resources of the country He has the love of an honest man, which is something. If he succeed in making both ends meet, he will be well deserving the thanks of the nation.

It is remarkable that the journals are almost silent on his appointment. The official papers display indifference to him, the 'Tribuna' hopes he will turn out well. We may add that he has served an apprenticeship in Financial matters, having been Administrator of Rents at Rosario during Pres. Derqui's term of office, and lately sat as President of the Board of Public Credit under the present National Government.

GREAT SOUTHERN RAILWAY

Programme of the Inauguration of the works, Thursday, March 3rd, 1864.

The site chosen for the inauguration, is on the Barranca of the Convalescencia opposite the new Asylum.

The entrance for invited guests will be in the calle Convalescencia by the quinta of Snr Sastre Valiente, on the slope of the Barranca, going towards Barracas.

Coaches coming for the guests, after the ceremony, will wait at the Matadero till near the first bastion, but need not remain on the Convalescencia high-road.

The sponsors of turning the first sod will be Their Excellencies, the President of the Republic, and the Governor of the Province of Buenos Ayres, who will be received on their arrival by the Managing Committee of the Southern Railway, and conducted to the place where the works will be commenced, at the hour of noon.

The Chairman of the Committee will briefly explain the objects of the Railway, and lead to Their Excellencies the instruments for turning the first sod.

This part of the function concluded, the guests will be conducted by the Managing Committee to the banquet, saloon.

The Committee being anxious to introduce a novelty both apropos and agreeable, has provided a gallery in the banquet hall, for the accommodation of the ladies of the guests who may honor the ceremony with their presence. Tickets for the gallery can be given at the entrance of the grounds.

N.B.—In case of adverse weather on the 3rd inst. the ceremony will take place on Saturday, 5th inst, at the same hour.

A LOCOMOTIVE TO THE 25 DE MAYO

The following official document for liberty to run a steam locomotive along the Paseo de Julio, has been expedited by the Municipality:—

Buenos Ayres, 25th February.

To the Minister of Hacienda of the Province, Don Luis L. Dominguez.

The Municipality of this city having carefully examined the request of the Northern Railway Company, to be allowed to run a steam locomotive on their present tramway, report that the Paseo de Julio is the direction of the 16th inst., to mention to you that it considers that the request ought to be granted, on condition of the railway keeping the following precautions:—It encloses the whole line of railway with iron fences, leaving, at the corners of streets a passage sufficient for all kinds of wheeled carriages, and about half square, smaller openings for other passengers. To place guards all along the line, three to the shutting of both large and small gates, when a train is approaching. The passage left for carriages on the public road must be, at least, 9 varas in breadth.

This last condition is, in the opinion of the Municipality, most important, as the accidents and losses scarcely 3 varas of breadth between Calles Cordoba and Paraguay, it being much straitened by the property of Don Pedro Agrelo, which juts out at Calle Viejo. There being a kind of 'puerto de cabotage,' at that point, there is a constant traffic kept up of vehicles of all kinds, and which, added to the carriages, horses, and foot passengers, requires that this part be made wider, for the small precautions used to prevent accidents.

As the railway company, in introducing a steam locomotive on to the present tramway, will require to make considerable changes in the present road, the Municipality does not consider that they ought to be put to any heavy charges in making the deviation required for the proper breadth of the street and the safety of passers-by.

On of two alternatives is thus offered to the Company either to purchase the land from Lorenzo Torres, or to carry the railway more towards the river, leaving the said house more on the left.

If the first be accepted, although it be a little more expensive, it will not interfere with the intended Custom-house, but as nothing definite has been decided upon, the Municipality cannot hazard any opinion.

LORENZO TORRES
R. LARROQUE.

February 29th.

In sight of the report passed by the Municipality, grant liberty to the Northern Railway Company to run a locomotive on their present tramway between the Retiro and Custom house, subject to the instructions of the Municipality as to securing the safety of passengers, and on their presenting a plan of the intended changes for proper examination and approval.

SAAVEDRA.
LUIS L. DOMINGUEZ.

EDITOR'S TABLE.

The inauguration of the Great Southern Railway Works will take place on to-morrow at 11.30 a.m., according to the invitation with which we have been favoured. The tickets are really a work of art, beautifully gilt with floral devices, after the manner of the old monastic illuminations on MS. There are two engravings nicely executed, representing the Mercado del Sud *as it is*, with the cumbrous bullock-carts; and *as it will be*, with the graceful and rapid locomotive! The latter engraving is by Bate, and on the reverse we have a prospectus of the company's officers elegantly done by Mr. Lange, of Calle S. Martin.

The 'Brazil and River Plate Mail' being now published twice a month, we have received the number corresponding to the French packet. It is such an excellent compendium of all news relative to these countries that we are surprised to have enrolled only two subscribers. Terms, 400 dollars for half year.

To-night Mme. Driol appears in Traviata. It will be worth while to hear her in 'Echiana,' and for this purpose we must go early as it occurs in the first scene.

The appointment of Colonel Conesa to the post of Inspector of Militia for the Province of Buenos Ayres, will probably surprise the Cocidos, who have set up a war upon him, and have their pens in order to send him to Congress. The gallant officer's politics are, it appears, not clearly defined, but we know of old that he is not a personal friend of President Mitre. It is, however, a charming instance of confidence, that both parties look to him as the man for the times as it were a bridge connecting opposite sides.

The Villa Mercedes is at last promised a branch paper-bank. The neighbors petitioned for the blessings of paper currency *ad libitum* in last December, and on the 15th ult. a monetary gentleman was despatched to that town: he was there days looking for a house big enough to hold the imaging paper of dollars, and at length succeeded! It is hoped that his future operations will be conducted in like good fortune.

The 'Times' gives favourable news about the projected harbor and railway of Ensenada, but mentions positively nothing of the Argentine Government's way. Buenos Ayrean Bonds are declining.

Refugees are crowding in upon us: The French packet brought from Rio Janeiro six of the seniors banished by President Beron to that city. These individuals, it will be seen, pass the summer in so warm a climate, returned, but the authorities signified to them that Montevideo was also *too hot* to hold them, so they sought the cool atmosphere of Buenos Ayres.

We call attention to the agency of Inteligencias Comerciales, announced direct from this city to the upper Provinces or Bolivia; also to Chile. Such an office was much wanted, for the monopoly of travellers overland will be greatly increased within the last twelve months.

We are happy to say that the poor Irish woman lost on Sunday has been found in Belgrano. Fears were entertained for her fate, but her relatives are now relieved from apprehension. She had been very improperly taken out of the Asylum, before recovered from her mental infirmity.

The new Proposal for steam navigation on the Plate, Parana and Uruguay is very important. Capt. Harrison and D. Adolfo Llambi offer to establish seven steamers in the U. States, with engines of English manufacture: they will make the following trips weekly: three to Montevideo, two to Rosario, one to Salto, and one to Corrientes, at fares half the present rate. They solicit a subvention from the Government of $8000 per month. Capt. Harrison enjoys a good reputation in this line of business, and Mr. Mauvilla is known as a large capitalist.

The White claim, arranged some time ago, between the American Minister and the Government is ordered to be paid, with interest on the Bonds since January of this year.

The programme of the inauguration for the 16th of March is drawn up in the most laudable innovation, in admitting ladies. We hope our native friends will imitate the example of the *señoras* ones, and not convert it into a club meeting.

The Dolly-bow authorities have decided that ladies have vote for the election of town commissioners. In order not to be outdone in gallantry, it would be well if they were given the franchise in Buenos Ayres, our next Municipal elections would not be so stormy.

The 'Gaceta Paulista' is sent round to day. We have not yet received the 'Revista de Buenos Ayres.'

DEATH OF ARCHBISHOP HUGHES.

To-day it devolves upon us to announce the death of another good ecclesiastic and great Irishman. The telegram from New York, per the Juno, informs us early and briefly, "Archbishop Hughes died yesterday in New York, is dead." This simple announcement will, we are confident, be read with regret by many in this city, and also in this country, to whom the deceased was known as a great Irish divine who had laboured long and zealously, and successfully for the promotion of his religion and the welfare of his fellow-countrymen in the country of his and their adoption. The lamented Archbishop was born in the county Monaghan, in the year 1798, a twenty-one years old he left his native land for the Americas. He was therefore about sixty-six years of age at the time of his death. He was the son of a small but respectable farmer, who left his native land for the New World in 1817. He was followed thither by his son, who commenced his career in New York as a florist, having been placed for that purpose with a noted gardener of that city. Possessing superior intellectual abilities, his mind and ambition could not rest content with the humble and limited sphere in which he found himself placed, and as soon as he had completed his engagement with his employer he carefully obtained admission into the Catholic Theological Seminary of Mount St. Mary's, at Emmettsburg, Maryland. Speaking of this period of his life, the Archbishop, in a speech delivered in Dublin during one of his last visits to the old country, remarked:—

"I was known westward to another country beyond the Alleghenies. In that country I had an opportunity of improving my education, for legislation there was none. I studied home police and appropriate to itself the key of knowledge; and there, although a Roman Catholic, I was made a freeman and an American citizen—long before the Catholic Emancipation Act was passed by the British Parliament.

"Long Hughes had determined himself so assiduously to study during the time he could spare from his horticultural duties, that he was not long after he entered the St. Mary's Theological Seminary that his superior qualifications attracted the notice of the principals, and he was elected to the position of teacher. This position he filled with great credit, and it was from this field of usefulness he was called to another. In the year 1825 Mr Hughes was offered and accepted the position of priest of a parish in Philadelphia.

Thirteen years subsequently, in 1838, he was raised to the prelacy, and consecrated Bishop of New York, and in two years afterwards the see was raised to an archbishopric. In America Dr. Hughes, as Bishop and Archbishop occupied a most conspicuous place, and, by his great abilities and reasoning powers, he won the respectful attention of even those who differed most widely from him in religious matters. His lordship has published several polemical works, which exhibit great research, a clear and logical mind, and an easy and perspicuous style of writing. In the year 1862 he visited Ireland, his native land, for the second time since he fir t left it in 1816, and occupied a distinguished place in the religious ceremonial and great popular demonstrations which attended the laying of the foundation of the Catholic University of Ireland, on the 20th of July, 1862.

The Roman historian condensed his eulogium of Augustus by saying that the found Rome built of brick, but he left it of marble. In a similar way may be the same remark may be made of Archbishop Hughes. When he was consecrated Bishop of New York, a the see was in the Dubois, Catholicity in this country was in its infancy. The clergymen were few, and the churches still fewer, and were generally miles distant from each other. But in a few years a wonderful change occurred. Churches sprung up in every direction as if by magic, while schools and colleges for the education of youth were founded in various parts of the diocese. In that city alone, through the exertions of his lordship, Catholic schools have been built in nearly every ward, and they are supported by the Catholic congregations in connection to the common schools established by state legislation. No ecclesiastic of great prudence has passed through so grand and perilous a career with more distinguished honour, unblemished reputation, and deserved applause. It has been well said that he was the "big wielded the power of a Wolsey with the gentleness and forbearance of a Fénelon."

His last moments were marked by the calmness and resignation of the true Christian. Even seven o'clock on Sunday morning, the day before yesterday afternoon no great change was noticed in his condition. He remained in the most feeble state, unable scarcely to lift his head, and it would hardly require much a whisper, and that with the utmost difficulty.

At 8 o'clock Bishop M'Closkey recited the prayers for the departing spirit, and while the voices of all were repeating, in broken accents, the words of the litany, the soul of the noble Christian Archbishop quitted its earthly tenement. He died without the slightest evidence of pain—peaceful, calm, and collected. His two sisters stood by his bedside at the awful moment, and one of them, Mother Angela, who has been for many years Sister of Charity, performed the melancholy office of closing his eyes.—*New York Herald, and Dublin Freeman.*

URUGUAY.

The Government has just arranged the terms on which lands which have been sold since 1862 are to be settled for. The following are extracts from the decree:—

"All Government lands sold since 1825 will be considered as leased, to form drawn up for the sale of private land, by Articles 7 and 8 of the law of 9th December, 1853. The holders of these lands are entitled to the privileges granted by Articles 13 and 14 of the same law. Forty days will be allowed for the purchase and valuation, fixed by Government of the title deeds. Any who do not make this appeal before the expiration of the forty days will not be entitled to the discount of 20 per cent mentioned in Article No. 2 of the law of October, 1862, but will be obliged to pay cash the total value of their lands.

"Uruguay, February 25, 1864.

"F. CUBERA,
"CLEMENTE ESTABLE V. ANDRADE.
"JUAN A. VARQUEZ."

With respect to the paragraph relating to the forty days, the 'Uruguay' says:—

"The term of forty days mentioned by Government for the presentation and recognising by Government of the title deeds appears to us to be very short. It would seem as though Government had only made allowance for the time necessary for the decree to become the people interested, and for them to make their appearance at once, without giving them time to arrange any matters they may have on hands, and still less for them to collect funds to pay for their lands. Besides, many of the holders may not be in the province, and if the decree reaching them late, they lose their right to the 20 per cent. discount.

MEXICO.

Dates from Mexico are up to 22nd December. The French journals say that the Imperial cause is gaining ground fast. Guanajuato was occupied by the Mexican-French General, Dupin, and Aguas Calientes had surrendered to the French Colonel Chanez. Only 98 members attended the last meeting of the Mexican Congress at San Luis de Potosi, and the Minister, Montluc, the French expected to enter that city on Christmas day, and it was supposed that President Juarez would likewise be notified to his friends ere (gone to Texas. The Mexican General Uraga attacked the French at Morelia with 3,000 men, but he was driven back with a loss of 2,000 men killed and wounded. The Mexican French General, Tavar, has been routed by the patriot troops. He had his artillery and munitions, 300 muskets, several horses, and much of his luggage. The brother of Gen. Uraga was severely wounded and received in the action of Escalones, commanded on this occasion, and was also severely wounded but they were not obliged to take to flight in chairs carried by men, and escorted by a very small number of men. The Mexican troops only lost four wounded.

Port and Railway of Ensenada.

There appears to be an early prospect of the creation of an improved port of entrance destined for Buenos Ayres, where the inconveniences caused by the shallowness of the river are unusually increasing. According to recent advices from Ensenada, which is about thirty miles from Buenos Ayres, and which would be to that city as Gravesend is to London, passenger ships facilities for the accommodation of the commerce of the region, it being practicable to construct several miles of wharf for such ships and for lighters to change, and load to and from the trains of the railway, which will connect the two places with the city. The engineer, George Krell sailed from Newport last week with the rails for the first station of this railway (the Boca, Ensenada, and Barranca Railway), and also a staff of men to examine the port of Ensenada under an arrangement between the Government of Buenos Ayres and Mr. Wheelwright.—*Times' City Article, Jan. 23.*

A paragraph in the *Times* of the 11th inst. conveys to the public the intelligence that Mr. Alexander Mc. Lafone, of Liverpool, who suspended in March, 1858, with untenable liabilities of £1,200,000, but who understood, upon receiving a letter of license, will ultimately 20s. in the pound, with interest at 5 per cent., has already accomplished the first moiety, and has justified the confidence reposed in him We may observe that Mr. Lafone's brother, who is one of the trust, enjoys a great residence in Monte Video, and also one of the largest landowners in the R. Or. and if we have no doubt that the gentleman referred to will in the fullness of time be established him to add Mr. A. R. Lafone in accomplishing so creditable a liquidation.

The decision of the judges in the case of the Alexandra has been declared. The question was as to whether the vessel was truly sequestrated by the Crown, should be made absolute. Chief Baron Pollock and Baron Bramwell, after elaborately reviewing the provisions of the Foreign Enlistment Act, arrived at the conclusion that there had been no infringement in the case of the Alexandra, and that, in their view and opinion, the Act does not prohibit the building of vessels for belligerents, but only their equipment in such a manner as to be effective for hostile purposes on leaving the shores of this country. Baron Channell and Piggott, also after elaborate examination, decided that a infringement of the Act had actually taken place, in consequence of which the Alexandra was now subject to forfeiture, and that there should be a new trial on the ground of misdirection of the jury by Chief Baron Pollock. The number of judges of either view being equal, as usual in such cases, the jumbr judge, Baron Pigott, withdrew his opinion, and the rule was therefore discharged, the Crown having power of appeal. The case is, therefore, likely to come before the Court of Exchequer, or even before the House of Lords. In the meantime the assembling of Parliament may render the legal interpretation of the Act less ambiguous than at present.

BRAZILIAN ITEMS.

Attempted Murder.—The Vicar of Icos, Miguel Francisco da Penha Leal, a native of Campos on the night of the 7th inst from two scoundrels who were awaiting his return to town from his seat at Bom Lugar—they were armed with muskets, but thanks to the speed of his horse he escaped with a shot wound in his arm.

Theft.—At Campos, on the 10th inst., was passing a short way from his own house when he was called by his neighbour Rosa Maria Borges, wife of Joaquim Borges Franco. When he entered the house Manoel and his wife's brothers Antonio C. Monarcha and Jose C. Monarcha commenced beating him, and ordered him to sign a letter for 9,000 dollars and on his refusing to do so, Rosa Maria Borges, who was lying in bed, in labour, forced him to sign it, and he left, each for 10,000 dollars. At 1 o'clock a.m. he was allowed to depart, and immediately gave notice to the police, who next morning succeeded in capturing the whole gang.

Drowned by Assault.—In the 'Minas Geraes of 11th inst we read the following. In November of the past year a fearful crime was committed at Aguapem in the district of Paranahyba, the particulars of which are more or less the following. A Portuguese merchant named Luiz Antonio Martins, bachelor, and a man of hasty temper, had a servant named Isabel Fernandes with whom he lived on intimate terms, and whom, for some reason unknown he dismissed. Some few days afterwards on the night of the 22nd or 23rd ult. Silvino, whilst Isabel was asleep, accompanied by his slave, Joaquim Coelho, also Portuguese, and a big strong man, went to the house of Maria Felicidade Lopes, where Isabel Fernandes was in bed together. He opened the door and with his accomplice ascended and surprised his victim in bed. Before she knew her he pursued her to the river, where he overtook her and butchered her, leaving her for dead. Next morning news of this atrocious assault spread over the town, and the authorities proceeded to the spot. The medical men who attended her, said that she would recover in a few days. She was brought to town and gave her statement, and Judge Martinho de Medeiros, appearing as prosecuter, demanded a new trial. This time the surgeons stated that 40 days or more would be required for her to recover totally. Whilst the process was going on, the authorities ordered to pay 2,000 dollars to close the matter, which offer was accepted—but the courts are averse to this, and demand a new trial. Owing to the prevarication the two culprits are still in custody.

GREAT FIRE IN DUBLIN

One of the most destructive fires that ever occurred in this city broke out on Saturday night last or rather to ten o'clock, in the extensive workshops of Mr. Beukey, cabinetmaker and upholsterer. These workshops are situated in Aston's Quay, and at the rere of the houses facing Mary-street. Shortly after the alarm was given the premises were completely wrapped in, and it would appear, from the peculiar position of the place where the fire originated, that nothing could save the extensive block of buildings, with the exception of the damage done to the rere of the houses between it and Jervis-lane, they were also saved from the burning ruin. The loss already so estimated near £20,000 in house and other property. The fire is supposed to have originated in Mr. Beakey's workshop by some shavings having accidentally ignited. It is stated that the premises were insured. The fire was completely under at about one o'clock.

CATTLE DISEASES IN ENGLAND, PARAGUAY.—In the report of the Cattle Supply Association, just issued for the present month, in the following extract we find something to interest two countries:—"A letter was received from Rio Janeiro reporting the cattle-plague to be raging in the state of Rio Grande, Brazil, which was formerly quite cotton district, and where the planters are anxious to increase cultivation. The exports from that state of country is of an inferior description, but New Orleans and other varieties succeed well. Liberal offers of land and money are granted. At the meeting held on Tuesday, the 9th 8th of January, a letter was read containing a communication from the Minister of Foreign Affairs at Asuncion respecting the measures adopted to extend the cultivation of cotton in Paraguay, and stating that there is a large area already planted, and that each year the quantity will be greatly increased."

Cotton growing is quite the rage in Peru, and this year's crop is estimated to yield 60,000 quintals.

SOUTH AMERICAN MISSIONARY SOCIETY.—This society, which has now its four stations and nine missionaries, at work in Patagonia and Tierra del Fuego, has received from the Church Missionary So-

ciety, with only the difference that it seeks to benefit the many thousands of English settlers in South America, as well as to carry the Gospel to the millions of aborigines who have been, by some strange oversight, neglected by every denomination of Protestant Christians in England. The readers of our paper will perceive that the action of this society, if heartily supported by some of the wealth of England, will go far to exercise a most important influence on a continent which becomes daily more and more open to English settlers, and increasingly valuable to the trade of England. It cannot be a matter of indifference that the English in South America should be Christians and not reprobates—but then in all but the former. It cannot be a matter of indifference that the aborigines who practically hold the best part of the continent, where cotton might be grown most successfully, should be left inside the pale of civilization, and made the helpers in the development of the wealth of the country, instead of being hinderers of its progress. We hold it, then, to be of the greatest importance that the English in South America, whether on the seaboard or in the interior, whether engaged as merchants, miners, agriculturists or railway officials, should be everywhere assisted in their laudable efforts to secure the services of efficient agents; we hold it also to be of the first importance that moral influence should be brought to bear upon the splendid tribes of the interior, who have never yet had justice done to them. We understand that there is every room for such work of usefulness, and that what is chiefly wanting is sustained interest in England and liberal support in working out the present splendid plan of the infant society. We understand that the Rev. W. Kirby, Rector of St. Dunstan's-in-the-East, City, will be glad to give information about the important mission.

We understand that the Royal Mail Steam Company very liberally took out by their steamer Magdalena, free of charge, the wheelbarrow and other articles intended to be used at the inauguration of the Buenos Ayres Great Southern Railway.—*Herald of Rio Plate Mail.*

A Unionist.—Hunter.—We had the curiosity the other day to make a note of the articles attached to a lady's dress, the fringe of which was admirably adapted for a "temporary roof of flax." It was before the late fall of snow, and the walking was dry. We mention a few:—Item—A cooper's shaving. Item—A dead monkey. Item—A half consumed cigar. Item—A wisp of straw with a conglomerate of street filth. Item—A bunch of brass hair. Item—An "Old Sarg" out of a veteran of the Potomac Army, but a second hand quid. Item—A quantity of street droppings. Item—The back of an old boot. How long would a man stand such nonsense as this? He would stand at the first door-sill, cut knife, and rip off the skirt to his knees.—*New York Paper.*

RIVER PLATE PRODUCE.

New York, Jan. 2nd and 6th.

(From Messrs. Carbutt's Circular.)

Wool—The year closes on an active and buoyant market both for Domestic and Foreign—a year of greater prosperity, probably, than any hitherto known in the Trade. An active demand has prevailed during the greater part of the twelvemonth, the staple having, to a large extent, been employed as a substitute for Cotton since the commencement of the rebellion. The stock, which we herewith present, though slightly in excess of the quantity on hand at the corresponding date of 1863, is nevertheless moderate, and as the manufacturers are known to be unusually bare of supplies, and the necessities for some time to come must necessarily be light, increased firmness is confidently predicted by trade generally, during January and February, usually a period of activity, as during these months manufacturers are accustomed to make their purchases for the Spring trade. With regard to the future of the market, however much depends on the ruling of gold and exchange: should there be no material abatement in the rates of these it is the general belief that if there be any change in prices during the month January, it will be in a higher range of quotations. The sales include 12,300 lb.

The market continues buoyant for both domestic and foreign, though with out animation. Manufactures are looking through the market, but their purchases are limited to present requirements. The demand seems to be running mainly upon the medium and better grades of domestic, which, being in small supply, and with increased firmness; foreign is for the most part neglected. The sales are 150,000 lb. State, Ohio, and Michigan fleeces at 77 to 80 cents, including a small parcel of choice at, at 81; 25,000 lb. pulled, 74 to 76; and 125 bales Mexican, on private terms.

Hides—There continues only a moderate demand from the trade at previous prices. The sales are 10,701 Buenos Ayres, to arrive, 24lb, at 28½ cents.

Tallow—Prime is in active demand, and with light receipts of country and a steadily decreasing stock both of country and city, prices may be written 1½ to 1¼ cent. per lb. higher; grades below strictly prime are dull, and though held firmer, no advance has been realised. Sales, 119,000 lb. prime city at 12 1/8 to 12 1/4 cents, with a little at 12 3/8; 100,000 lb. do. for delivery next month, 12 1/4; and 80 to 90,000 lb. grease 10 1/2 to 11 cents.

Exchange—The business for the Saturday steamer has been moderate, but rates are firm. We note bills on London 109 to 109 3/4 per cent.; France, 5 37 1/2 to 5 40; Antwerp, 5 37 1/2 to 5 41 1/2; Switzerland, 5 1/2 to 55 1/2; Amsterdam, 39 1/2 to 61; Bremen, 121 3/4 to 122 1/2; Frankfort, 39 1/2 to 61 1/2; and Thalers, 110 3/4 to 111 1/2.

Havre, Jan. 20.

Various lots of horse hair, Buenos Ayres, have been sold at 129 to 130 francs per 50 kilos. The demand for horse hair has revived. Wool also shows an improved tendency. 33 bales Buenos Ayres having fetched from 1f. 60c. to 2f. 30c. the kilo, and 90 bales Montevideo, washed 2 f. 45c. the kilogr.

Havre, Jan. 9.

Transactions in wools in 1863 have been more important than in any of the previous—prices throughout the year have been equitable; the wools are of a little more difficult sale than they were at the beginning of 1863. There is a report current that the clip of wool of this season is of very bad quality, which is to be regretted as inferior qualities are sold with great difficulty in the French markets. During the past week horsehair and feathers have been readily realised. The horns and bones nothing has been done.

Havre, Jan. 23.

Wool very dull; in sheepskins on the 21st 1 ton 6 cwt. sold. The imports during the past week have been 9,634 bales of wool, and 115 bales of sheepskins. Horsehair is rising in price; 145 bales have been sold from 9 f. 50 c. to 126.55 per kilogr. Feathers are still of difficult sale. There have been no transactions in bones, but the consignatory several shipments have arrived which will most likely overstock the market.

CLUB DEL PUEBLO.

This Club met on Sunday last, in the Victoria Theatre, and was attended by upwards of 1000 people.

Dr. Gutierrez made a long speech, explaining the reason for the amalgamation of the two clubs, Pueblo and Libertad. Several other gentlemen also spoke on the same subject. The meeting voted that a commission of the Pueblo should be appointed to arrange, in conjunction with the club of the same, slates for the next election. Three days were to be allowed to the commission to arrange affairs, and then they were expected to hand in a statement of their proceedings to the club. It would appear, from Dr. Gutierrez and Dr. Chamorro being appointed president and vice-president of the Club, that General Hornos has dropped all connection with this party.

LATEST FROM MONTEVIDEO.

The schooner Reggio brings private letters from Montevideo, Feb. 20th. It was rumoured that a conspiracy for revolution had been discovered, but this was untrue. Peaceful Flores took his farewell on the 28th, at a grand review of the garrison, and on the 1st he was to hand over the reins of power to Sor. Aguirre. The Monay was stopped, and will not sail for some days, in order to prevent the transmission of news to B. Ayres. It is thought everything will go on quietly. Flores names about the campaign of a great distance from the capital, and nothing is known of any military operations.

Exchange is falling: London, 32d; Paris, 83f; for

The following vessels have arrived in this port:—

Bordeaux—Donbe Amelia; Hamburgh, Juliana; Antwerp, Helvetia; Genoa, Catterina; Liverpool, Mary Stroud; Malago, Emisuqe; Barcelona, Esmeralda.

LOCAL EVENTS.

Indian Invasion.—Letters from Mendoza state that the aborigines had invaded the Southern frontier of that province, and succeeded in carrying off some cattle and prisoners. The troops stationed on the frontiers are blamed for this misfortune, as in the fort of San Rafael and other places there were more than 200 men, and they did nothing to oppose the advance of the Indians. The chief of these forces, Commandante Olascoaga, was in the city of Mendoza at the time of the invasion.

Montevideo—Some of the passengers who arrived by the Paraguari state that Sunday last there was to have been a grand review of the troops in Montevideo, but that at the last moment it was postponed, on account of a report being current that Flores was approaching the city.

Rosario.—There has been a sanguinary battle fought between Flores and Saravia, in which the latter has been defeated, and been obliged to retire to Itaura, after having suffered a loss of 9 dead and wounded, and 2000 prisoners. Mesquera had 7 dead and wounded. Mesquera had passed the Chota and defeated the troops which opposed him.

Rosario.—The inhabitants of Quilmes had taken refuge in Gozuquil, and the Governor of Guayaquil had called to arms all males capable of serving for fourteen years of age. It appears from last accounts 1 th December that Flores has proposed peace.

Extract on board the Saintonge, Messrs. Castillo, nier, Caneras and Vasquez, returned from Rio de Janeiro, in the vicinity of which they made to land in Montevideo; but, on arriving at that port, they found their expectations blasted, and were ordered by the authorities to "move on," accordingly, they came to Buenos Ayres.

Northern Railway—The "Nacion Argentina calls the attention of the directors of this railway to a nuisance which is frequently committed on the line. It appears that a number of 'gorillas' get on to the 'knifeboard' of the carriages, and amuse themselves, and annoy other passengers, by insulting the conductors and stations made by those suffering from 'St. Vitus dance.' There are few things more annoying to people, either country or otherwise, than to sit in a carriage and have a parcel of Goths overhead performing the 'double-shuffle.' There is probably a by-law passed by railways in the States and England, forbidding the railway guards to allow any one or more passengers to travel by the train. Should there be any such law on the Northern Railway, it would surely require a great stretch of imagination to class those Goths under either one or the other head, or perhaps both. If the Rosario directors see about cause a temporary insanity, perhaps Sr. Cazon could by his hand at curing these insane visitors, by his popular and infallible remedy of solitary confinement, joined to an occasional turn at sweeping the streets.

Lagarto—On the 27th ult. the Italian brig Francesca cleared our for Antwerp with 3315 cwt hides and 93,1 4 lbs. of bones.

Letter—A letter is lying at this office for Mr. George Packes.

March 1st.—Yesterday was the date of expiration of President Flores's official term. Sor Aguirre recently elected chief of the Senate enters as President *pro tem* The University of B. Ayres commenced its academical year on Tuesday.

LETCHFORD'S WAX & STAR.

R. Letchford & Co. beg to caution the public against the spurious imitations of their Wax Vestas and having recently built an extensive Factory especially adapted to the peculiar manufacture they can receive no further orders for Wax Vestas unless they are sold with the name of their Trade Mark. Customers, therefore, when ordering Wax Matches should be particular in requesting "Letchford's make," as others are often substituted.

Sewing Machines.

A large and varied assortment of hand, Warranted to work well. Prices are all of the latest and most improved inventions, and of different prices.

JOHN SHAW,
169 Calle Venezuela

Sewing Machines.

The largest assortment in town, for the use of Families, Tailors, Dressmakers, Saddlers &c. These Machines are manufactured under the latest patents, and are warranted superior, One of their special merits consists in being easily regulated. This improvement is very important, as numerous at Stopping and Loosing Stitches, and Co's machines, especially those for manufacturing purposes, are insufficient for the use of the Public at large. Noiseless Machines work very easy, and consequently are of much more duration than any other.

SAVINGS BANK
BANK MAUA & C°
No. 103 calle de Cangallo.

BUENOS-AYRES.

The immense advantages of *Savings Currency* are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, foreign-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a *sure-fire fund* in case of *want, sickness or old age*, instead of spending them in the immoral gambling, in lotteries and other frivolities

The Bank of Mauá and Co. of this city following the example of their firm in Montevideo now offer the same facilities in this city and will open on the 1st October a "Savings Bank" at No. 103 calle Cangallo from 9 a. m. to 2 p. m. on week days, and on Sundays and holidays from 10 a. m. to 12 m. for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a Pass Book in which will be entered the amount deposited and withdrawn.

The depositor is permitted at *any time* to withdraw the *whole or part of* the sum deposited, in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the public by the benefits derived from the course of its operations which are regulated on the strictest and soundest principles and always directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres September 19th 1863.

p. p. Mauá & Co.
WILL. S.S.M. LESLIE.

CONDITIONS.

1st. The Bank receives at interest any sum from *Twenty five dollars currency or one silver dollar* upwards.

2nd. The interest allowed is *six per cent* [6 p.%] per annum which is liquidated every six months.

3rd. The depositor can at any time retire the *whole or part* of the money deposited.

4th. Once the amount deposited exceeds *Twenty five thousand dollars currency or one thousand dollars silver* the depositor if he wishes can open an *account current* according to the rules established by this Bank.

5th. In case the depositor loses his Pass Book it can be replaced by another on paying *twelve dollars currency*, and advertising the loss in the public newspapers.

NOTICE TO THE LADIES.

ENGLISH GRAMMAR SCHOOL,
CALLE LARGA DE BARRACAS
Ooo—Mr. Pongerard, of the London University College.
This Establishment, which from its foundation has been patronised by the principal British families of Buenos Ayres, is now reproduced on of on E glish School, where a sound commercial education combined with the most complete course of French and Spanish languages is imparted to the pupils, and based upon the same system as in all first class European institutions of the kind.
An ever-watchful and constant supervision, and a strict observance of order and propriety, are a sufficient guarantee of the morals and behaviour of the pupils confided to the Chef del Estado.
The different branches taught in the English Grammar School comprise the following:—French and Spanish languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and Religious instruction.
Extra branches, such as Latin, Mathematics, German, Music and Drawing, are also taught by special masters.
The situation of the English Grammar School, in one of the most delightful parts of the Calle Larga de Barracas, at no very gates of the city, is one of the most healthful and unobjectionable of the environs of Buenos Ayres.
For particulars apply for prospectuses at the Standard Office, Calle Belgrano 74.
Dr. P. PONGERARD.
